

OLOWOLAGBA PETER

olowolagbapeter290@gmail.com | Nigeria

PROFESSIONAL SUMMARY

Highly motivated and disciplined entry-level Cybersecurity graduate with a strong interest in network security, enterprise networking, and cybersecurity operations. Possesses a solid academic foundation in cybersecurity and practical exposure to enterprise IT and security environments. Currently developing deeper expertise in networking and network security, with a strong commitment to continuous learning, technical growth, problem-solving, and professional excellence. Eager to contribute to a forward-looking organization while building a career in network engineering, network security, and cybersecurity.

EDUCATION

Bachelor of Technology (B.Tech), Cybersecurity Science

Federal University of Technology, Minna | 2021 - 2026

RELEVANT WORK EXPERIENCE

Stanbic IBTC Pension Managers — IT Intern, Network Team

June 2025 - August 2025 | Lagos, Nigeria

- Supported daily monitoring of enterprise network links using SolarWinds and assisted with identifying and escalating connectivity issues.
- Worked with Cisco core switching infrastructure and used PuTTY for secure command-line access and basic network troubleshooting support.
- Gained practical exposure to Cisco SD-WAN device management and enterprise network operations.
- Assisted with network administration and monitoring activities using ManageEngine.
- Supported Wireless LAN operations, including guest Wi-Fi access arrangements for auditors and visitors.
- Assisted with meeting-room connectivity and collaboration infrastructure troubleshooting involving AirMedia, UC Engine, and transceiver/receiver equipment.

Stanbic IBTC Pension Managers — IT Intern, IT Security Team

August 2025 - November 2025 | Lagos, Nigeria

- Supported the IT Security team in monitoring and documenting security operations across enterprise security platforms.
- Gained practical exposure to Portnox for network access control and endpoint/network access visibility.
- Worked with Forcepoint security controls and gained exposure to security policy monitoring and data protection workflows.
- Observed and assisted with security assessment activities using Cymulate.
- Gained exposure to Imperva Database Activity Monitoring (DAM) for monitoring database security events and activity.
- Worked with Trellix ePO for endpoint security administration, monitoring, and reporting activities.
- Supported weekly IT security reporting and contributed to management-level SteerCo reporting.
- Observed datacenter firewall refresh activities and enterprise firewall/security infrastructure operations.
- Gained exposure to Check Point SmartConsole and supported security administration and Active Directory/endpoint-security reconciliation activities.

TECHNICAL SKILLS

Networking: TCP/IP, IPv4/IPv6, LAN/WAN concepts, switching, routing fundamentals, wireless networking, network monitoring, SD-WAN fundamentals, Cisco networking, PuTTY

Network & Security Tools: SolarWinds, ManageEngine, Portnox, Forcepoint, Cymulate, Imperva DAM, Trellix ePO, Check Point SmartConsole

Security: Network security fundamentals, endpoint security, access control, database activity monitoring, security monitoring, vulnerability/security assessment concepts, firewall fundamentals

Professional: Technical documentation, reporting, troubleshooting, attention to detail, communication, teamwork, continuous learning

PROFESSIONAL DEVELOPMENT

Cisco Certified Network Associate (CCNA) — In Progress

CAREER INTERESTS

Network Engineering | Network Security | Enterprise Networking | Cybersecurity Operations | IT Infrastructure Security
